

## BRACKETS

### Universal Gun Mounting Kits

Valco Melton brackets will mount onto any vertical or horizontal square bar 16mm to 20mm in diameter. A universal clamp design allows for easy installation. The brackets also come standard with cool-touch handles to allow for "tool-less" installation, removal, or adjustment and are capable of holding 1/2" round bars for easy applicator installation and placement.

- Universal square bar clamp within 16mm to 30mm diameter
- "Tool-less" installation and adjustment using quick turn handles
- Versatile installations by allowing for 3 axis adjustment
- Easily adaptable onto any existing machine
- Bracket Bridge Package provides fixed mounting bar when none is available
- Variable configurations fit nearly any application

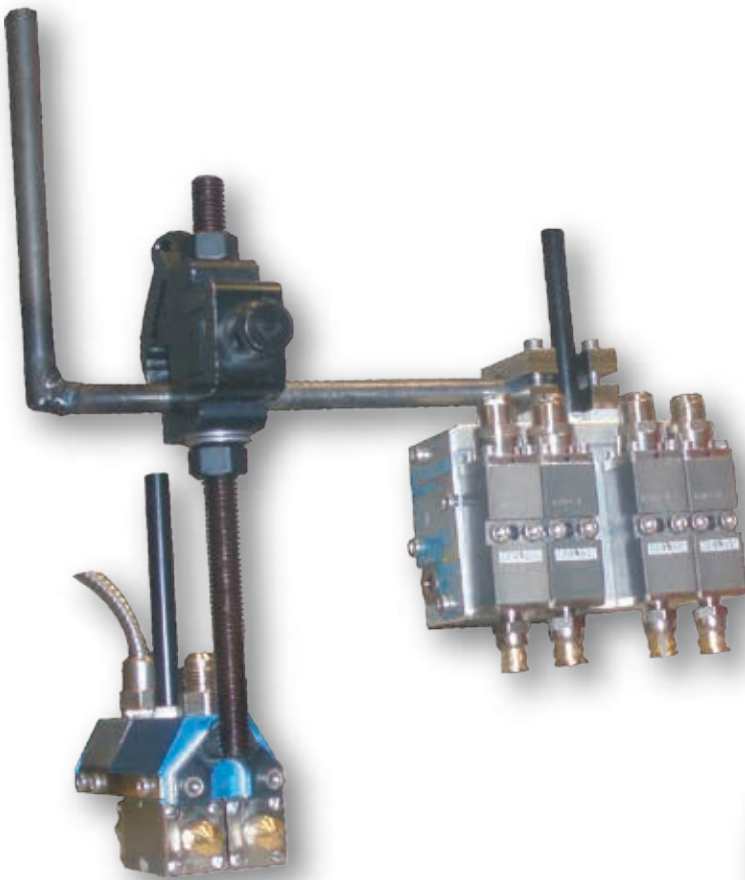

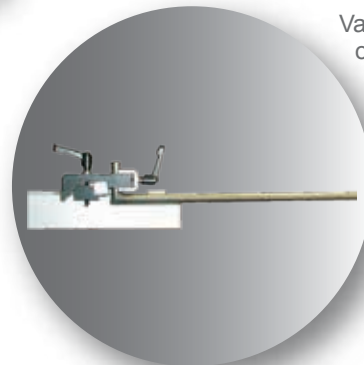

The 579xx398 bracket allows for X, Y, and Z axis adjustment. 1

The 579xx397 bracket is adjustable on the X and Y axis. 2

Variable "L" bars can offer many different configurations. 3

*Example of a typical mounting*

#### Additional Mounting Bar Options:

##### Applicator Mounting "L" Bars:

582xx565 - 1/2" round "L" bar, 4" x 18"

582xx704 - 1/2" round "L" bar, 4" x 10"

582xx703 - 1/2" round "L" bar, 10" x 12"

##### Scanner Mounting Bars:

581xx129 - Vertical "Flag bracket (Standard or Laser Scanner styles)

581xx126 - Horizontal "Flag" bracket (Standard or Laser Scanner styles)

579xx211 - Universal Laser Scanner bracket (Laser Scanner only)

## Bracket Bridge Kit

The Bracket Bridge Kit (579xx399) includes two bridge mounting bases and a 42" square bar. The bridge allow mounting heights from 2" to 8" high. The 5/8" square bar mounts horizontally across the machine, providing a bridge for the applicator and scanner brackets to attach. (This kit includes basic mounting hardware.)
