

## EASYCOAT™

### Adhesive Coating System

Valco Melton's EasyCoat™ Adhesive System promises continuous and reliable adhesive application. EasyCoat uses a unique high chromium steel die assembly that ensures consistency in production runs with minimal adjustment.

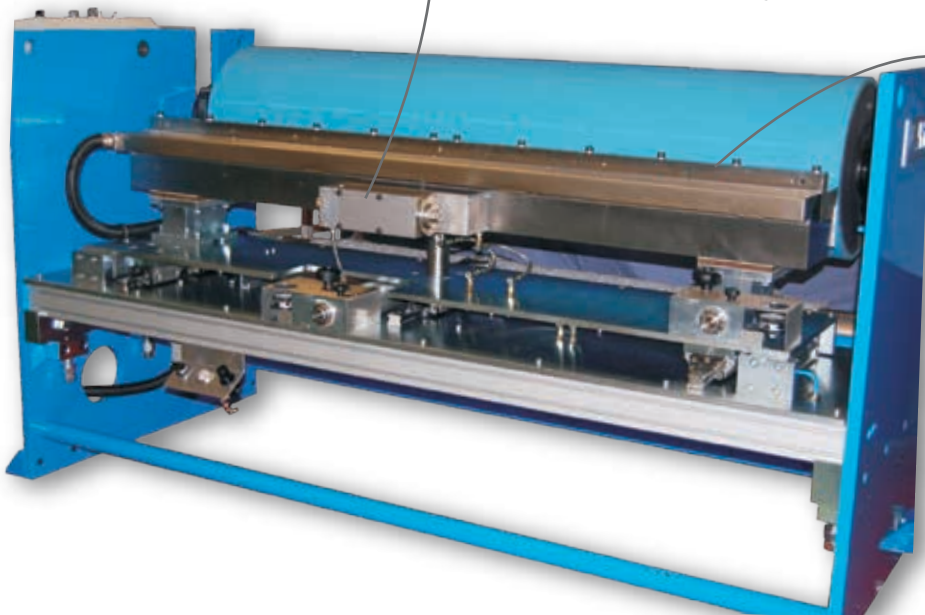

- Logic controlled head positioning
- Easy installation into existing web handling machine
- Coating widths up to 3 meters of hot melt or cold glues
- Die, mount and roller assembled into rigid frame
- Ideal retrofit for existing label printing presses to enhance in-house capability

Filter and  
single inlet  
valve

Precision die-mount with  
micro-adjustment

3-piece head design with  
single input valve

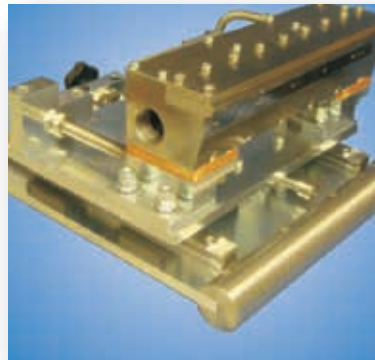

**Key highlights:**

- Wider EasyCoat Systems are constructed to be either a permanent fixture on existing machines or fully mobile wheel-in carts
- EasyCoat can be engineered as a turn-key solution to ensure full compatibility with any existing machinery
- Laminating nip drives and additional chilled / path rollers can be added as required
- Complete coating and laminating lines can be supplied
