

MCP 6 INTERNAL SERIES

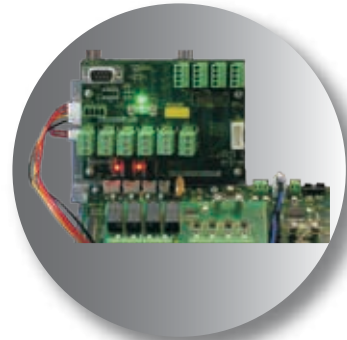

Internal Pattern Control System

The MCP-6 is a fully integrated 6 channel internal adhesive control system available on a full line of melt tanks. This system is offered factory installed or as an aftermarket package. The MCP-6 can operate any 24VDC solenoid valve and each channel can handle up to two each. All cables are wired into the board using Phoenix Contact™ connectors which allows the user to attach valves and photo-eyes into the control card. Cables with flying leads are included in all kits.

- 6 Programmable 24VDC outputs and 4 inputs
- Internally mounted boards and components
- Easy to navigate LCD display
- Use in either Time Based or Speed Based Mode
- Adhesive Reduction Stitch Mode
- Works at a maximum speed of 240 m/min (800 ft/min)
- Job storage up to 99 programs
