

VALCO MELTON

GLUING & QUALITY ASSURANCE SYSTEMS.

## **Live Online ValcoLink™ Remote Network Connection Removes Travel Costs for Big Savings.**

Now available for Captor™ High-Speed Vision systems and/or VCX/OT-120 gluing and inspection controls, the ValcoLink™ software package offers a “live” remote network connection for troubleshooting and system verification by Valco Melton personnel with customer’s gluing/inspection systems.

Valco Melton corporate office Service and Engineering personnel can instantly confirm correct control settings, make control system changes and easily identify system problems on any machine with the ValcoLink™ option installed.

A ValcoLink™ subscription also comes with continuous software upgrades, so that you can take advantage of new features that are consistently added. Stay current and ensure your gluing and quality assurance investment has 100% uptime.

Guarantee that you are using equipment properly and at its highest level for instant gain on your state-of-the-art investment with the new ValcoLink™ software option.
