

MCP-8 ADHESIVE PATTERN CONTROL

Micro Processor Based Control

Valco Melton's new MCP-8 Series Glue System control features a full color display screen and easy-to-use graphical user interface. The MCP-8 offers 8 channels of gluing with up to 10 individual glue patterns. The integrated 8-channel jam preventer makes the new MCP-8 ideal for complex gluing jobs. Additional features include multiple communication protocol for different parent machines, USB port for data backup, internal job storage (up to 16 GB), and remote access capabilities.

- Full-color display with easy-to-use graphical interface
- Supported with an adhesive reduction stitch mode
